

## **ROE Visual Honored at the 20<sup>th</sup> Annual Parnelli Awards**

### **Black Pearl BP2V2 LED Panels Receive the Indispensable Technology Award**

**Chatsworth, USA (June 2022)** – Presented by FOH and PLSN, the 20th Annual Parnelli Awards returned to the 2022 NAMM show on June 3<sup>rd</sup> for a special evening. Among those honored at the awards was ROE Visual which won the Indispensable Technology (IT) Award, Video for its Black Pearl BP2V2 LED panel. Thereby marking another year of industry recognition for the company's leading position in LED displays.

As the industry's highest honor for live event professionals, the award show brings out the pioneering, influential professionals and their contributions, honoring individuals, companies, and game-changing products. The awards are truly the "Oscar®" of the Live Event Industry.

ROE Visual LED products have achieved outstanding results in various technical awards as of late, including the Red Dot and iF Gold awards. Following the Vanish series' 2020 win at the Parnelli Awards, this time, with the IT Award for the BP2V2 panel, ROE Visual adds yet another award to the list of highly-praised LED products, presenting its strong and unparalleled merits in the space.

Acknowledged as the optimal innovative display for filmmaking, broadcast, and many other indoor applications, the Black Pearl BP2V2 panel offers excellent in-camera performance, standing out in its class. With BP2V2's user-friendly and creative design, high frame rate, high refresh rate, and low scan lines, it's easy to see how these factors contribute to unrivaled visual experiences. The high-performance solution has thereby been widely used in studios globally and continuously unlocks a new range of possibilities in content production, solidifying it as a favorite with industry experts.

"Thanks to all for their continued trust and support in ROE Visual! Our team is incredibly excited to receive this prestigious award. The honor solidifies our conviction that we are on the right path, and we will unswervingly go on to support more incredible projects with our reliable LED panels and services," says Frank Montero, Managing Director of ROE Visual US.
