

A large-scale fixed installation in a modern airport terminal. The installation features a massive, curved wall covered in a dense, green, vertical garden. A large airplane is suspended in the air above the wall, appearing to fly through a gap in the foliage. The ceiling is high and modern, with a grid of lights and a few birds flying overhead. The floor is polished and reflects the light. In the foreground, a person is walking through the terminal, and a sign for "Baggage" is visible. The overall atmosphere is bright and airy.
